FLUIDALL, LLC is committed to continue to provide the unique fluid handling and storage solutions our customers around the world have received for over 10 years. Formerly d.b.a. Tote-A-Lube, LLC. FLUIDALL, LLC continues to market and manufacture our Tote-A-Lube Series and Wall-Stacker Series of tanks. Please visit www.FLUIDALL.com or contact us or one of our Distributors & Dealers for information on our complete line of liquid solutions.

PRODUCT SPECIFICATIONS:

Tote-A-Lube and Wall-Stacker Series tanks are constructed from virgin polyethylene UL rated food grade resins and are designed for use with polyethylene tolerant fluids. Valves, fittings, hose and sealers also must be compatible with the fluids stored in the vessel. Use of the tank with incompatible fluids may cause tank failure and void the manufacturer warranty. Primary uses for Tote-A-Lube and Wall-Stacker tanks include all polyethylene tolerant fluids with flash points over 200° F.
